

SAMS series

The SAM mixer series has been specially designed for all public address and communication systems requiring a minimum risk of unwanted external manipulation.

Frequently used controls are easily accessible. Specific adjustments remain only accessible by the installer for precise and permanent settings.

SAM SERIES are very easy to use, even for non-technical users. All this is packed into a compact, 1 unit high, 19" rack unit.

SAM series general KEY features

- Universal 1 RU, 19" installation mixers
- Excellent frequency response
- Balanced MIC and stereo LINE inputs and main outputs
- Reliable proprietary power supply
- Ideal for any application requiring a trouble free mixer

SAM series Technical Data overview

SAM 312

3 input channels, 2 main outputs. 19" 1 RU universal mixer

- 3 MIC / stereo LINE (RCA) input channel mixer
- Input signal pushbutton selector (MIC/LINE) on back panel
- Independent internal assignable phantom power for all MIC inputs
- Direct MIX input allows straight forward connection of further mixers
- Triple tone control (accessible only with screwdriver)
- 2 stereo OUTPUTS (XLR3 / RCA)
- 3 LED OUTPUT level meter
- 2 additional stereo REC outputs (REC1, REC2)
- Mono mode switch
- Headphones general MIX monitoring
- Remote MUTE control (EUROBLOCK) allows connection with fire detection systems

SAM 512T

5 input channels, 2 main outputs. 19" 1 RU universal mixer

- 5 MIC / stereo LINE (RCA) input channel mixer
- Input signal pushbutton selector (MIC/LINE) on back panel
- PFL on all inputs for headphone monitoring
- Independent internal assignable phantom power for all MIC inputs
- Channel 1 features integrated TALKOVER on MIC input. Additional front panel MIC connector
- Direct MIX input allows straight forward connection of further mixers
- Triple tone control (accessible only with screwdriver)
- 2 stereo OUTPUTS (XLR3 / RCA) with independent volume control
- 3 LED OUTPUT level meter
- 2 additional stereo REC outputs (REC1, REC2)
- Mono mode switch
- Full remote MUTE control (EUROBLOCK) allows connection with fire detection systems

SAM 614

6 input channels routable to 2 main outputs. 19" 1RU universal mixer

- 6 input channels
- MIC (XLR3) inputs on channels 1 and 2
- MIC/ stereo LINE (RCA) in channels 3 and 4. Input signal pushbutton selector (MIC/LINE) on back panel
- Stereo LINE (RCA) on channels 5 and 6
- Input signal gain level control (accessible only with screwdriver)
- Each channel features signal present (SP) and CLIP indicators
- General phantom power switch located on back panel. Independent internal phantom power assignment to any MIC input
- Triple tone control (accessible only with screwdriver)
- 2 main stereo OUTPUTS (XLR3) with independent volume control
- 3 LED OUTPUT level meter
- Input channels can be routed to any main output (A,B) or both
- 2 additional stereo REC outputs (REC1, REC2)
- Mono mode switch
- Headphones monitoring of selected output (A or B)
- Integrated, internally configurable talkover. Affects OUT A and REC A

General applications

- Gyms
- Restaurants
- Leisure venues
- Conference boards
- Education centres
- A/V presentations
